

# Partners in Research and **RICH Voices**

Patient and Public Involvement in  
NRS Neuroprogressive and Dementia Network and ENRICH Scotland

**Rosie Ashworth and David Ross**

# Partners in Research

**PPI INPUT  
REQUESTS**

**DESIGN &  
DEVELOP  
CO-  
RESEARCH**

**MONTHLY  
DROP-INS**

- We host online group meetings which have different aims and activities.
- The groups have been shaped over time by people with lived experience and what they want to gain from ‘patient and public involvement’ work

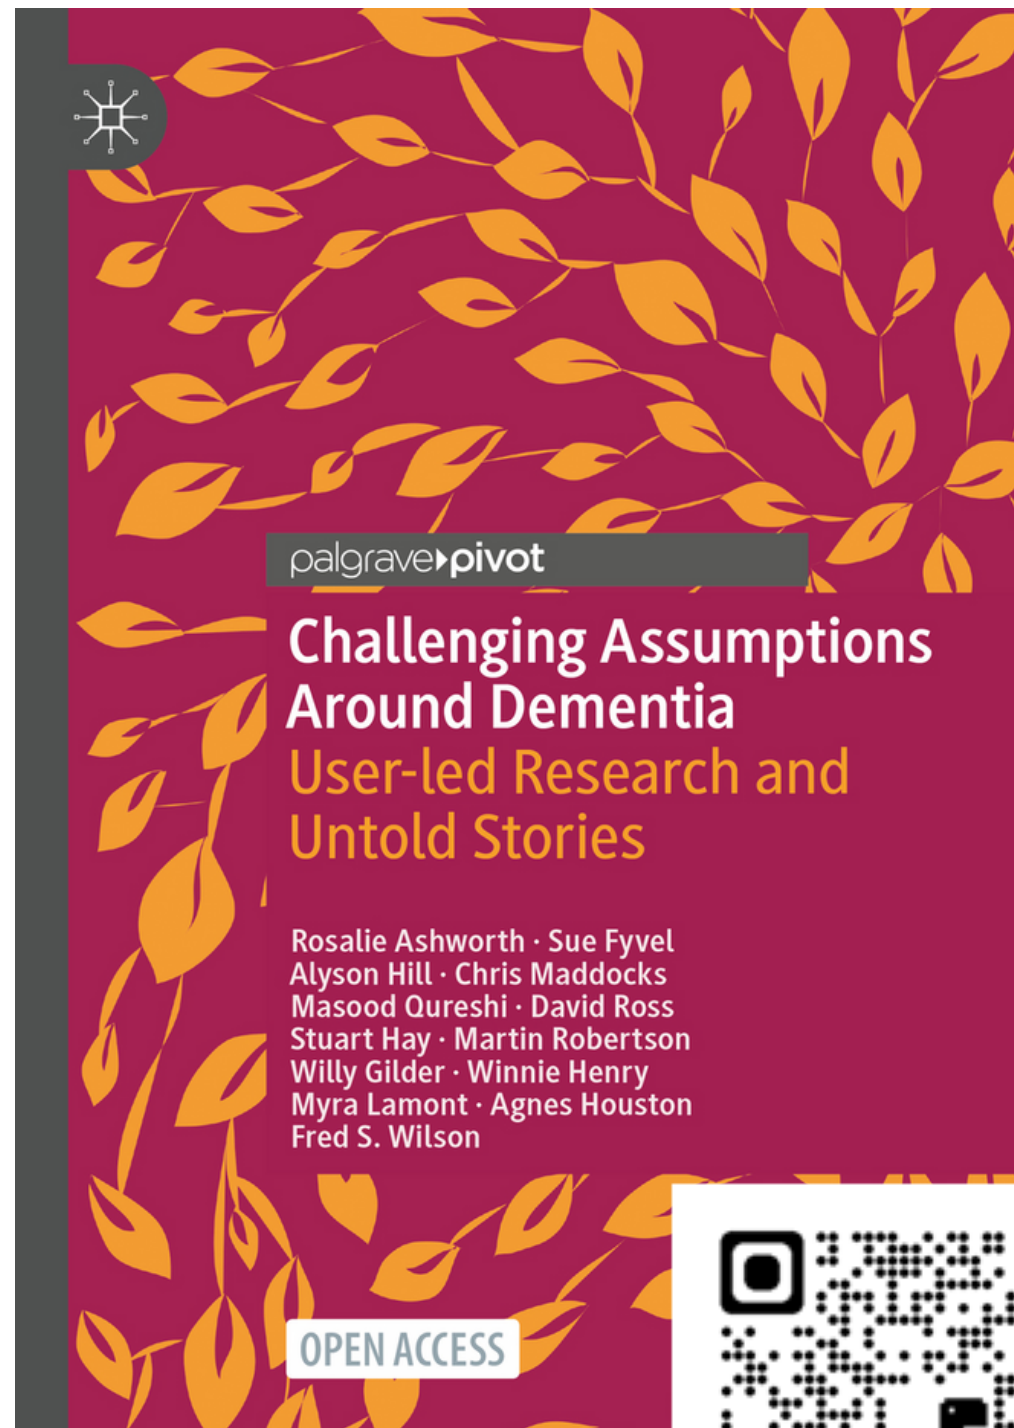

**SIGN UP**

# Achievements

Co-written book about dementia - available freely online. Nearly 10,000 downloads in it's first 6 months.

Working with researchers to provide input into their work, as well as becoming co-researchers on multiple projects

Designing and developing co-produced research based on areas of interest to the group

We have been able to present our work, host monthly webinars, as well as offer training and co-research support to others

# Things to think about

*Moving forward with Partners in Research*

**Increasing  
diversity**

**Missing  
voices**

**Barriers to  
change**

**Time &  
Resources**

# RICH Voices

- Research In Care Homes (RICH) Voices focuses on people living and working in care homes
- Core team (including people with lived experience) reviews 'researcher input requests' for PPI in care home research
- Our Clinical Studies Officers work with local care homes to them, to support in-person patient and public involvement activities

# Achievements

WATCH VIDEO

Worked with Raith Manor Care Home to create a film about research participation

Recorded a podcast about research in care homes- in edit

Designed and developed an accessible research platform based on input from care home staff

Working with researchers to improve lay summaries of their work, and have these available on the updated website/platform

# Things to think about
